DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Kim et al (KR332954B). The figure shows an upper piece 20 connected to a center piece 40 to define branch pipes 24, and the center piece connected to a lower piece 60 defining a surge tank at 46a.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kim et al. The figure shows an upper piece 20 connected to a center piece 40 to define branch pipes 24, and the center piece connected to a lower piece 60 defining a surge tank at 46a. The manner in which the three piece is connected is not set forth, however vibration welding of plastics is well known and would have been obvious to one of ordinary skill in the art.

Allowable Subject Matter

Claims 1-13 are allowed.
